

# ReWORK

**PAST. PRESENT. FUTURE.**

**2023/24 HOME KIT**

The Workhorse Group family are delighted to be front of shirt sponsors for the local clubs who mean so much to our communities.

Workhorse Group return to the front of Colchester United's home shirt following last year's dedication of the space to the Workhorse Generation charity hub. Our event and sports memorabilia company Eveson Row are featured on the front of the U's away shirt.

Transdec will soon be opening their Stirlingshire based hub and are delighted to be unveiled as East

## Proudly Supporting our Local Football Clubs for the 2023/24 Season

Stirlingshire's home shirt sponsor. Our ReWORK project is promoted on the front of the Shire away shirt.

With our support of the Colchester United FC Women's team and local grass roots team Kings Park Rangers we certainly have a lot of matches to follow this season!

# How Our ReWORK Solution Helps to Keep Furniture Out of Landfill

ReWork is the furniture re-use scheme which entwines the ethos and values of its creator, Workhorse Group, by supporting the environmental push preventing landfill and lowering its carbon footprint and supporting communities nationwide by donating furniture free of charge to Charities, Community Hubs, Start-up Businesses and the Education Sector.

We understand that it's human nature to think "what's the catch?", and think "it sounds too good to be true". The reality is that ReWork exists because it is a bi-product of commercial paid work between TRANSDEC and its clients. TRANSDEC work nationally to move, store, and clear office furniture and IT equipment.

Historically, that would have involved dispatching large amounts of unwanted furniture into landfill at a cost not just to the customer but also to the environment. Those customer costs are now used to enable TRANSDEC to remove unwanted office furniture from customer sites and deliver it directly to ReWORK warehouses. It is then itemised, added to the ReWORK website and made available for collection, free of charge, to end users who fit the criteria for its ethical re-use.

**PAST, PRESENT & FUTURE**

ReWORK is the furniture re-use scheme which removes the office and end-of-life assets. Workhorse Group, by supporting the environmental push preventing landfill and lowering its carbon footprint and supporting communities nationwide by donating furniture free of charge to Charities, Community Hubs, Start-Up Businesses and the Education Sector.

We believe it is time for environmental change and the need to take action now is more than ever to be a positive force for business, a generation, and with ReWork we can make a real environmental impact.

## Our New Fleet Designs Show the Bigger Picture

TRANSDEC's new fleet designs are certainly turning heads as they travel around the UK!

We wanted to get across the benefits that initiatives such as ReWORK and our Workhorse Legacy projects have

on our planet and its nature. With a giant polar bear on one side and trees on the other, they are a great talking point for our customers, crews and the public who see them in their towns and on the motorways. 'Talk is cheap, action wins the day!'

## A Great Community Day at Colchester United

The WORKHORSE GROUP team enjoyed a day with Colchester United fans of all ages at their recent Open Day at the Jobserve Community Stadium.

Colchester United launched their new home and away kits for the 2023/24 season that proudly display the Workhorse Group and Eveson Row logos on their front respectively.

We took the opportunity to highlight Workhorse's 'pollinator corridor' initiative by giving away 'Bee Bombs' and showcasing British grown perennial plants.

# Group's Domestic Removals Company WH SHORT are Closing In on Their Big 50!

Our domestic removals and storage company, WH SHORT, has been serving the local North Essex community since the 1970s and are now fast approaching 50 years of moving their community.

Experienced crews specialise in local and long distance moves. WH SHORT also offer a number of different packing solutions - with their FULL PACK SERVICE they can take care of everything for the entire move!

Other services include dismantling and re-assembling, specialist item moves and secure storage.

As part of the Workhorse Group, ALL of our moves are carbon offset through our partners, ECOLOGI.
